

Empire State Opioid Epidemic Innovation Challenge

September 28-30, 2018

Columbia University Fu Foundation School of Engineering and Applied Science

Dr. Bryant is currently the Executive Director of Simulation at Columbia University's Helene Fuld Health Trust Simulation Center. Throughout her career she has become an expert in the field of simulation through her experience of designing simulation centers and implemented simulation programs for two of the top rated nursing schools in the country. The Helene Fuld Simulation center is equipped with the most advance human patient simulators and Standardized Patients (actors) to help create a safe learning environment to prepare students to be competent healthcare providers.

Dr. Bryant has over 16 years of teaching experience and 10 years of experience as a Perinatal/Women's Health Nurse Practitioner. She has presented at over 40 national and international conferences. In addition to presenting, she has published 6 book chapters and 17 articles in the area of simulation education and teenage pregnancy. She has served as a key personnel on 2 HRSA grants that focus on increasing use of simulation in the classroom setting and teaching oral and systemic health to Nurse Practitioner students through the use of simulation.

Dr. Bryant received her Associate degree in nursing from Hudson Valley Community College. She then continued her education at SUNY Stony Brook where she received her Bachelor and Masters Degree. In 2006 Dr. Bryant completed her Doctorate of Nursing Practice (DNP) from Case Western Reserve University. She has received her certificate in simulation from Drexel University and is a certified Simulation Healthcare Educator.
