

Empire State Opioid Epidemic Innovation Challenge

September 28-30, 2018

Columbia University Fu Foundation School of Engineering and Applied Science

Dr. Mishra is a Director in the OCIO at Northwell Health (formerly North ShoreLIJ). She is the Service Line Leader for Population Health and Delivery System Reform Incentive Payment (DSRIP) departments and provides operational oversight to various clinical integration initiatives. She functions as a strategic partner to the business units that are engaged in community/population health management initiatives to collaborate around process improvement, technology infrastructure development and resource planning.

She has over 17 years of experience in the healthcare industry with special focus on population health management, physician group practice management, operations improvement, and strategic data mining. She has extensive experience in driving projects related to clinical integration, comprehensive care management implementations, medical management strategies, Patient Centered Medical Home accreditation, shared savings strategies, physician compensation restructuring, cost/utilization management efforts, and performance metrics measurement.

She has a Ph.D. in Medical Informatics from Pune University and a Masters in Healthcare Administration from Johns Hopkins University and ASCI, India. She is a Certified Project Manager (PMP) and is accredited by NCQA as a Facilitator for Patient Centric Medical Home projects. She is a fellow in Academy of Health Management/LOMA. She is also certified in NextGen EMR and Practice Management Systems. She is a noted speaker and has authored several articles that have been published in various prominent journals.

At her previous job, she was serving as the Chief Managed Care Officer for Queens Long Island Medical Group in New York under a practice management contract with Navigant. In this capacity she oversaw all the population health management initiatives including Patient Centered Medical Home roll-out and sustainability. She was also responsible for driving the value based incentive programs.
